

When you have a myHealth Online (MHO) account, you can access your hospital stay information, message your care team, and share your health updates with friends and family.

Visit myhealthonline.sccgov.org or download the MyChart app.

Your Hospital Stay

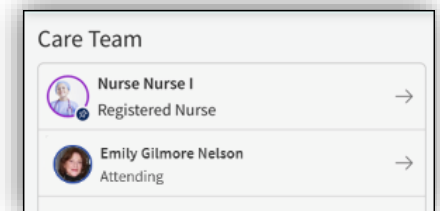

After logging in to your account, the main screen will show information on your stay, diagnosis, admission date, and expected discharge date.

Tap **(View)** next to the reason for your hospital stay to learn more about your diagnosis and treatment during your stay.

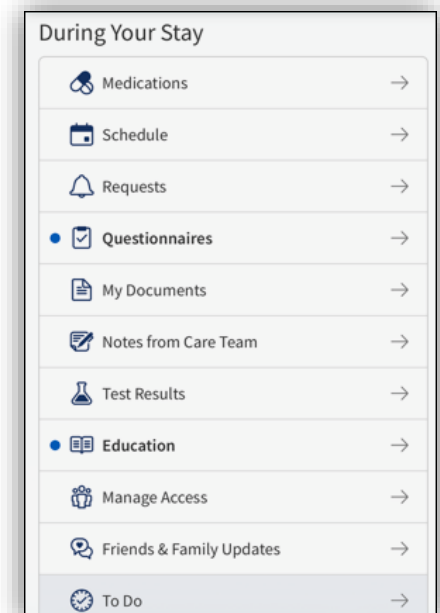

Care Team

Tap on a name to learn more about someone on your care team.

During Your Stay – Any new or unread items will show a blue dot. Choose a topic to see more information about your:

- Medications
- Schedule - to see events like medication administrations and imaging appointments
- Requests - for items like a snack or blanket.
*For urgent requests, please use your call light.
- Questionnaires, documents and notes from your care team
- Test Results
- Education – to learn more about health topics
- Manage Access – to allow someone to see your medical records
- Friends & Family Updates – to share information about your care
- To Do list

MORE INFORMATION

- **Requests**

1. Tap **Requests**.
2. Tap the item or service you'd like.
3. Add any comments staff need to know and tap **Submit request**.

- **Questionnaires** – To complete for your care team about you or your health.

1. Tap **Questionnaires**.
2. Tap the questionnaire you want to complete.
3. Respond to the questions and tap **Submit**.

- **Manage Access** - Allow people to view your medical information during your stay.

To add access for a friend or family member:

1. Tap **Manage Access**.
2. Tap **Invite friends or family**.
3. Enter the invitee's email address.
4. Tap the access level for the invitee.
5. Read the terms and conditions, select the checkbox to agree, and tap **Send invite**.

To remove access:

1. Tap **Manage Access**.
2. Tap **Revoke** on the box with the person's name.
3. Tap **Revoke** in the pop-up window to confirm.

- **Friends & Family Updates**

1. Tap **Friends & Family Updates**.
2. Tap **Post an update**.
3. Enter the update you'd like to share and tap **Post Update**.

- **Education** - Read about a diagnosis, tips for managing your diagnosis, or information about your medications.

1. Tap **Education**.
2. Tap the name of a lesson.
3. Tap a chapter in the Table of Contents.
4. Tap **I understand** when you are done reviewing the topic.
5. Tap **I have questions** if you would like to ask your care team about the topic. Your care team can see your question and will follow up with you.
